

# Introducing ICTL

Instituto para Conservação  
de Tecnologias Livres

Antonio Terceiro  
President

ICTL is a non-profit association registered in the city of Curitiba, founded in 2018 by members of the **Curitiba Livre** community.

# Goals of ICTL

- Foster the **use and development** of Free Software and Hardware;
- **Support and Publicize** Free Software and Hardware **projects**;
- Support **Digital Inclusion** projects that use Free Software;
- Foster the **adoption of free software by governments** at the city, state and federal level;
- **Support other national and international institutions** that have similar free software-related objectives.
- Promote free software-related **courses, seminars, conferences** and other events for training, information, and spreading knowledge about free software

# Main activity: fiscal sponsor

- A fiscal sponsor is an formal organization that gives an institutional home to informal projects.
- What a fiscal sponsor can do for projects:
  - Sign contracts
  - Receive sponsorship funds
  - Make payments
- Example fiscal sponsors: Conservancy, SPI, FSF

# Our projects

[YOUR PROJECT HERE]

# Requirements for an ICTL project

- Must be Free Software and/or Free Hardware
- Must have a reasonable code of conduct
- Must be a community project
  - Business-oriented projects can and should be businesses (we need more, not less, free software businesses!)

# ICTL values

- Free software-only for member projects
- Full transparency, including finances
- Contribute back to free software we use

# Future plans

- Strategic planning
- Improve procedure documentation
- Start getting the word out in the community
- Start a few projects to foster free software in Brazil

# Thanks
